## ARA's CAR Program is Your Guide to Environmental, Safety, Business Compliance and Efficiency!

### CERTIFICATION JUST FOR YOU.

The Certified Auto Recycler (CAR) Program is backed by the ARA Certification Committee, which is made up of dedicated auto recyclers to provide the most practical compliance assistance in the industry.

### EASY TO USE - EASY TO RENEW.

The CAR Program utilizes an "Electronic Record" to guide participants through a streamlined compliance process.

**INSPECTION DOCUMENTS ON HAND.** The CAR Program tracks and guides compliance and quality for professional auto recyclers, keeping a facility's documents in one place.

**ENDORSED BY EBAY MOTORS.** CAR certification is now required to sell recycled air bags on the platform. eBay trusts the CAR brand protocols, and auto recyclers who meet these standards are seen as top-tier facilities.

**MORE THAN JUST CERTIFICATION.** This tool is built just for automotive recyclers to use to improve and grow their business. This program provides the pathway to certification in High Voltage Vehicle Dismantling and Recalls. It is also a stepping stone to achieving **ARA Gold Seal**, the premier customer assurance and approval program.

**MARKETABLE EXCELLENCE IS ONE CLICK AWAY.** Use the QR Code link to get started!

*"The CAR Program is my roadmap to compliance and education for our entire team."*  
- Shannon Nordstrom, Nordstrom's Automotive Inc.

*"The EPA surprised us with a visit! However, thanks to the CAR Program and the unwavering support from our environmental compliance team, coupled with the diligent implementation of best management practices and continuous readiness for regulatory agency visits, we found ourselves in a highly confident position."*

-Greg Daurio, Daurio Auto Truck

*"The certification process was well worth the effort. We were impressed with how much we learned and applied to our business through the content. Also very happy with the excellent support!"*

- Heidi Bershad, Lansdowne MotorSports
